 $^{^{\}star}$ There is an intermediate step.

 $^{^{\}star\star\star}$ By work cycle we mean a self-propelled movement of 20 m with a full ascent to and descent from the maximum height and with adjustment of the loading platform.

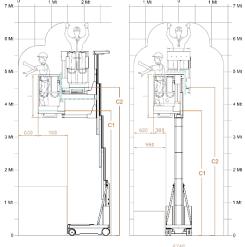

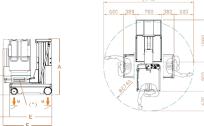

Compliant with **EN280** rule.

Approved for indoor use or outdoor use in the absence of wind.

 $^{^{\}star\star}$ Maximum pressure whereas the weight of the platform plus the maximum load on the basket are completely distributed on one side of the platform (totally asymmetric load).
